

# LET'S CELEBRATE CHANUKAH

## Directions for Assembly:

1. Color all pages using watercolor markers or colored pencils. (Page 6 tab: sky should be colored blue except for the moon and stars. The curtain section should be the same color as the curtain on page 6.)
2. Cut out the manipulative pieces for the book. The circled number next to the piece indicates what page it belongs on.
3. Laminate. (optional)
4. Using a razor, cut slits on the dotted lines on pages 2, 3, 4, 5, 6, 9 and 10.
5. Assemble pages:

*Page 2* Fold back the sides from tab of grocery cart. Slip through the slits. The tab should be at the right side of the page. Unfold the tab.

*Pages 3, 4, 5* Fold the tab part of each piece toward the piece itself. Then open the tab and pull it through the slit on the book page. The tab will be on the back of the page. Then tape the tab in place on the back of the page.

*Page 6* (a) Cut 2 pieces of magnetic tape and attach on the menorah and on the page where designated. (b) Cut out the window opening. (c) Tape the tab guide to the back of the window hole. (d) Fold back the tab sides and slip through the slits. The tab should be on the right side of the page. Unfold the tab. (e) Fold the tab part of each piece toward the piece itself. Then open the tab and pull it through the slit on the book page. The tab will be on the back of the page. Then tape the tab in place on the back of the page.

*Page 7* Cut out the inside of the flames. Tape the top of the tab guide to the back of the flame holes near the top edge of the page. Then slip the pull tab under the tab guide, making sure the pull tab is on the right side of the page. Then tape the bottom of the tab guide in place.

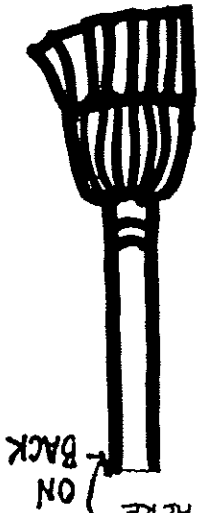

*Page 8* Cut out the dream cloud on the dotted lines. Put a brad through the "x" below the dream cloud and then through the "x" on the dream wheel. Spread the flanges of the brad to fasten.

*Page 9* Put a small piece of magnetic tape where designated on the back of the broom handle, pedestal pieces, and the page. Tape the two pedestal pieces back to back and pull tab section through the slit on the book page. Then separate the tabs--butterfly style--and tape the tabs in place on the back of the page.

*Page 10* Fold the tab part of each piece toward the piece itself. Then open the tab and pull it through the slit on the book page. The tab will be on the back of the page. Then tape the tab in place on the back of the page. (The number on each tab corresponds to the number box which it will cover.)

*Page 12* Put a brad through the black dot on the dreidel, and then through the "x" on the page. Spread the flanges of the brad to fasten.

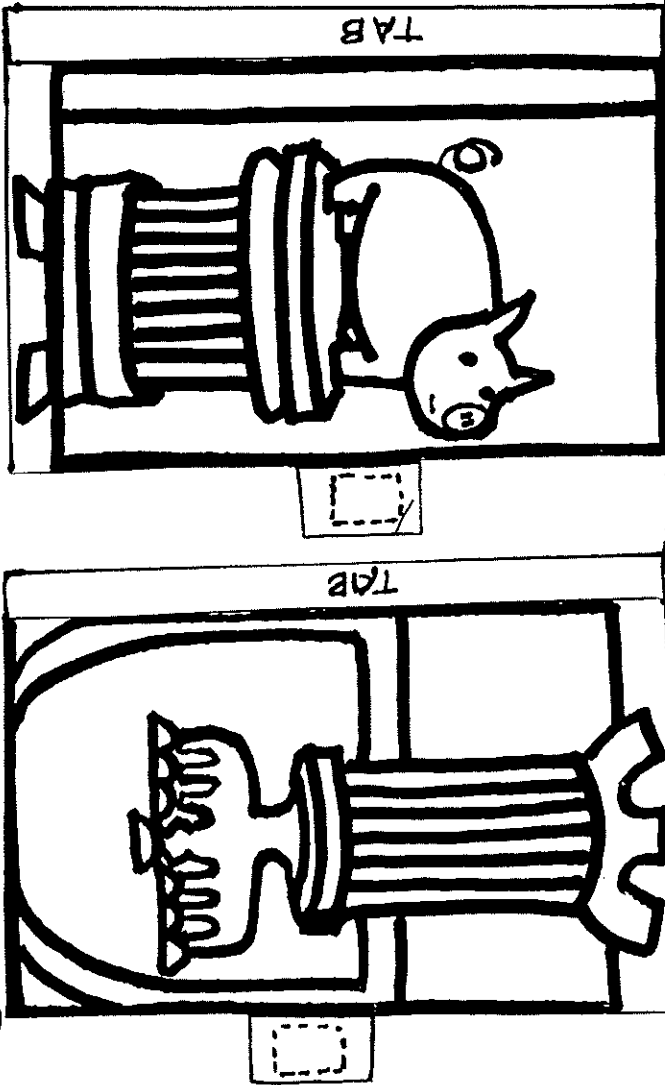

6. Bind book.
