Israel Center  
**MILWAUKEE**  
JEWISH FEDERATION

Born in Beer Sheva, moved to **Argentina** at the age of 13 and lived there for 25 years until 2002.

I made aliyah with my wife Karina and our 2 kids. We arrived to Ein Zivan, a very small kibbutz, and fall in love with it. After a few years we decided to realize a dream and open a small chocolate workshop, so in 2006 we opened a small **chocolate boutique** that grows to a small factory with 35 employees.

Since the beginning I'm *in charge of the management, marketing and sales of the factory* and my wife, Karina in charge of the R&D and production. With the years we acquire a lot of knowledge and experience to become leaders in the field.

Why in Ein Zivan? Because everybody tells us that it's impossible. We understand that if we build a nice place with special products, people will come, and it works. This is our way to contribute to build Israel and our self.

I'm a family guy and I like to spend time with my family and friends, to cook, to travel and ski.

Today I want to expand the circle and know other people, to know and understand them and establish a durable relationship at a personal level. I would like to know other people like me, regular people that want to share experiences with others and find a common ground to make new friends.
