*(updated from May 14 statement with the addition of organizational signers)*

## **Joint statement on UWM**

*Hillel Milwaukee, the Milwaukee Jewish Federation, and ADL (the Anti-Defamation League) Midwest issue the following statement in response to University of Wisconsin-Milwaukee (UWM) Chancellor Mark Mone's capitulation to encampment protesters:*

University of Wisconsin-Milwaukee (UWM) Chancellor Mark Mone capitulated to protesters who violated UWM codes of conduct and state law, vandalized university property, and used harassment and intimidation to fuel antisemitism on campus. The agreement is among the most offensive and dangerous of any university agreement reached with encampment protesters over the last two weeks.

Chancellor Mone's agreement with protesters comes after seven-plus months of him refusing to meet with Jewish students and failing to adequately respond to antisemitic incidents on campus since October 7. The chancellor's statement provides no meaningful support to UWM's Jewish community and fails to acknowledge the fear and pain Jewish community members have endured due to the actions of protesters during the encampment and before.

In contrast, Chancellor Mone gave protesters who fueled hate and violated school policies at UWM a seat at the table and even invited them to nominate individuals and faculty to serve on key university committees and working groups. The chancellor's decision to grant immunity to individuals who mocked and broke school rules and the law sets a dangerous precedent for future incidents on campus. And, in another desperate attempt to appease the protesters, Chancellor Mone appears to have used his public university position to compel a private company to submit to demands of the Boycott, Divestment and Sanctions (BDS) campaign.

Chancellor Mone has been negligent in his duty to ensure all students feel and are safe on campus. We call on the Board of Regents of the University of Wisconsin System to immediately negate this agreement and take the aggressive steps necessary to ensure Jewish – and all – students are able to attend UWM and all UW campuses without the threats of harassment, intimidation and hate just because of their identity.

---

*As of 4 p.m. May 15, 2024, the following local Jewish faith leaders have signed on with their support of this statement:*
